This is not alcohol (Alcohol content 0.00%)

NOT THE SAME AS EXISTING NON-ALCOHOLIC WINES

TASTE OF THE REAL THING WITH 0.00% ALCOHOL

Until now, wine-flavored drinks generally were dealcoholized (had the alcohol removed from the wine) and maintained a small amount of alcohol content, or were created using non-fermenting fruit juices that did not generate alcohol.

However, "Celeble" uses **fermented grape juice via a unique production process which doesn't generate alcohol**. It expresses the **acidity and richness unique to wine** that can only be obtained by fermenting fruit juice.

It is an alcohol-free drink that offers peace of mind to designated drivers and pregnant women while **maintaining its great taste**.

THOUGHTS REGARDING THE PRODUCT NAME

"Celeble" was coined from "Celebrate".

As a drink to add something fancy to the dinner table on anniversaries or special occasions, or as a reward at the end of a hard day, we hope that you will drink it **in many different "celebratory" situations**.

On the label, we emphasized "Alc. 0.00%" to make it clear at a glance that it is **not alcohol**. We designed a label that expresses the effervescence and sparkle of the carbonation.

RECOMMENDED FOR THESE KINDS OF PEOPLE

Because it's a non-alcoholic sparkling wine with **0.00% alcohol**, you can drink it with peace of mind.

- Those who cannot drink alcohol because they will be **driving**
- Those who cannot drink **alcohol** much because they **don't like** it
- Those refraining from drinking wine **during** their **pregnancy**
